

A unique, powerful training opportunity that creates premier players.

Train September to June at Superdome Sports

- Work with top coaches experienced at developing elite youth players
- A proven approach to bringing your game to its highest level

The Soccer Institute is an elite soccer training program founded in the Latin/Continental European school of soccer focusing on creating great individual players.

The Soccer Institute places a premium on creativity, fast decision-making, multiple long and short passes, quick ball movement, agility, and superior ball mastery. Unlike tradition-bound academies of soccer that value a mere “kick and chase” style, the Institute promotes a game where each player is expected to have direct impact on the game itself.

All coaching is done by pros from Europe, South America, and the USA with regional, national and collegiate level credentials. The staff includes USA National Team coaches who have developed the highest number of local players achieving success at the collegiate, national team, and professional levels.

The Soccer Institute is not a club team, but a program where individual players build their soccer skills and bring their game to its highest level.

Note that *The Soccer Institute* is a supplement to Club team play, not a replacement. In fact, club team coaches are some of our strongest supporters since they know the result is better-skilled club players.

Join us for a unique soccer training experience proven to improve your game.

We are a soccer school for individual players, not a “club” academy team and we train the top players from many teams in the Metro area.
